

*Swakop Uranium, a Namibian world class uranium mining company, invites people who are self-motivated, energetic and wish to work in a High Performance Culture environment, to apply for the following role.*

## **Vacancy: Technical Coordinator**

**Location: Husab Site – 67 kilometers from Swakopmund  
Reports to the Maintenance Superintendent**

### **MAIN PURPOSE OF JOB**

*The Technical Coordinator is responsible for the execution of the maintenance plans, unplanned breakdown schedules, stores and services of activities between week 0 and 1 in order to support the maintenance teams to achieve optimization of resources and services to achieve the objectives of the mine maintenance section.*

### **Key Performance Areas:**

- Coordinate and execute technical details of various production or service aspects including planning, and execution phases.
- Carry out equipment inspections; draw up short term (weekly) maintenance requirement in order to optimize engineering down time.
- Coordinates maintenance, inspections and repairs of related equipment in area of responsibility current under repair with service providers.
- Review weekly maintenance performance reports and equipment repair history and recommend/implement technical corrective action to optimize equipment availability in support of production.
- Coordinate spares, tools and other equipment requirements.
- Order parts and required components in conjunction with the Maintenance Planner, suppliers and contractors, in order to optimize downtime.
- Control and record the receipt of new parts, components and equipment, by checking for compliance to specifications.
- Monitor and coordinate the activities of all support systems and the overall technical performance of week ZERO maintenance execution in terms of planned and unplanned maintenance.
- Considers reactive maintenance in week ZERO and coordinates once approved by relevant stakeholders.

### **Requirements and experience:**

- Grade 12 certificate with 4 technical subjects and N3/L3 certificate with recognized trade diploma in relevant field.
- Minimum 5 years post trade Artisan level maintenance experience in the mining industry and at least 2 years in the maintenance planning environment with supervisory experience
- Basic CMMS experience and SAP Plant Maintenance
- Valid Code B/BE Driver's License. Code C/CE will be an added advantage

*Through its commitment to its people, the company offers a competitive remuneration package and the opportunity to work alongside some of the most experienced and dedicated people in the industry.*
