

Swakop Uranium, a Namibian world class uranium mining company, invites people who are energetic, self-motivated and wish to work in a High Performance Culture environment, to apply for the following role.

VACANCY: RELIABILITY ENGINEER - ELECTRICAL

**Location: Husab Site – 67 kilometers from Swakopmund
Reports to the Reliability Manager (Engineering)**

MAIN PURPOSE OF THE JOB:

The implementation of Reliability Centered Maintenance (RCM) philosophies, strategies and techniques related to reliability of components, equipment and processes, and to identify and manage asset reliability risks that could adversely affect business operations, in order to support the continuous achievement of the Swakop Uranium annual and long term Operational targets.

Key Performance Areas:

- Develops, recommends and implements strategies for improving equipment and process reliability;
- Leads the formulation, planning and implementation of Reliability Centered Maintenance (RCM);
- Monitors and quantifies reliability cost savings, increased production and/or equipment life cycle costs;
- Develops project plans for reliability initiatives;
- Analyses data, reports and investigates causes of delays and deviations;
- Maintains the integrity of the reliability centered maintenance system data and reporting functions;
- Controls user access authority;
- Develops and implements audit programmes to assess the effectiveness of the reliability centred maintenance programme;
- Develops strategy/plan to eliminate or reduce production losses;
- Manages responsible section risk in the areas of environmental health and safety, asset capability and quality and production;
- Adheres to the Life Cycle Asset management (LCAM) process throughout the entire life cycle of assets;
- Provides technical support to production, maintenance management and technical personnel;
- Prepares individual training and development plans and manages own performance.

Requirements and experience:

- B Eng/BSc/B Tech Engineering Degree (Electrical or Mechanical)
- 5-8 Years' experience in the Mining industry
- Sound experience in RCM – Reliability Centered Maintenance philosophies and techniques
- Project Management, system engineering and SAP PM experience
- Valid Code B driver's license

Through its commitment to its people, the company offers a competitive remuneration package and the opportunity to work alongside some of the most experienced and dedicated people in the industry.
