

Swakop Uranium, a Namibian world class uranium mining company, invites people who are self-motivated, energetic and wish to work in a High Performance Culture environment, to apply for the following role.

Vacancy: Mechanical Technician (Ancillary Maintenance)

**Location: Husab Mine, Swakopmund
Reports to Team Leader Ancillary Maintenance**

MAIN PURPOSE OF JOB:

To provide advanced technical support to the Ancillary maintenance function, with a view to manage the technical aspects towards maximum equipment availability and optimum cost including adherence to job safety and good housekeeping standards.

Key Performance Areas:

- Support a team of maintenance artisans and assistants to ensure that the technical aspects of the Haul Truck maintenance function and associated safety procedures are fully and clearly understood and continuously applied and improved.
- Perform continuous technical assessments in working area of responsibility and make recommendations to enhance maintenance effectiveness in achieving the maintenance goals and objectives.
- Ensure maintenance compliance and improvement within original equipment manufacturer (OEM) equipment specifications.
- Carry out routine and planned technical maintenance/support audits and duties.
- Liaise with (OEM) technicians to maintain good relationships in order to solve and/or trouble-shoot any maintenance issues as per standard procedures and specifications.
- Inspect, trouble-shoot and diagnose faults to enable correct repairs on equipment and machines as per maintenance requirements and schedules.
- Participate in the technical mentoring and technical performance review of subordinates and provide constructive support to improve their competency.
- Ensure quality workmanship and maintenance improvement training to artisans.

Requirements and experience:

- Grade 12 with 4 technical theoretical subjects.
- Recognized Trade Diploma in relevant field with 4 technical theoretical subjects at N6 Level.
- 7 years post apprenticeship experience
- Technician related experience in cost control, maintenance and analytical fault finding.
- Experience on SAP – PM related modules
- Experience in OEM electronic monitoring/fault finding systems (Komtrax Plus, Modular Mine care, AMS2000)
- Previous maintenance experience on the following Komatsu earth moving equipment would be an advantage - *PC850 Excavator, D375 & D475 Track Dozer, WD600 Wheel Dozer, WA1200 Front End Loader, G825 Grader and 785 Water Trucks*
- Valid Driver's License

Through its commitment to its people, the company offers a competitive remuneration package and the opportunity to work alongside some of the most experienced and dedicated people in the industry.
