

Swakop Uranium, a Namibian world class uranium mining company, invites people who are self-motivated, energetic and wish to work in a High Performance Culture environment, to apply for the following role.

Team Leader Control & Instrumentation

(Plant Maintenance)

Location: Husab Mine

Reports to the Superintendent C&I

MAIN PURPOSE OF JOB

To supervise, implement and execute the operation and maintenance activities for the Control and Instrumentation on site and ensure good availability for Instrumentation equipment, complying with the site procedures applicable as well as standards and adherence to job safety and good housekeeping procedures and practices.

Key Performance Areas:

- Ensure that all safety & quality standards are adhered to.
- Set standards and specifications for subordinates, contractors and suppliers.
- Recommend and implement improvements to work practices, methods and procedures.
- Lead a team in maintenance and repair of equipment and compile and implement contingency plans to achieve maintenance objectives.
- Carry out inspections, draw up scheduled maintenance requirements and execute planned shut programmes to optimize costs and down time.
- Supervise and participate in the maintenance, inspection and repair of equipment.
- Review maintenance performance reports and equipment repair history and recommend and implement corrective actions.
- Order parts, steel and required components as needed in conjunction with Maintenance Planner, suppliers and contractors, in order to minimize downtime.
- Ensure the receipt of new equipment by checking for compliance and specifications.
- Plans, assigns, schedules and supervises the work of artisans & assistants engaged in the construction, installation, maintenance and repair of instrumentation and control and participates in the more difficult work.

Requirements and experience:

- N6 with a C&I or Instrumentation Mechanician Trade Certificate.
- Minimum 5 years post – trade maintenance experience in the Instrumentation field in a Mining Processing Plant.
- 3 Years' Supervisory experience.
- Integrated maintenance systems experience such as SAP
- Code B/BE Driving license

Through its commitment to its people, the company offers a competitive remuneration package and the opportunity to work alongside some of the most experienced and dedicated people in the industry.
