Location: Husab Site – 67 kilometers from Swakopmund
Reports to the HOD: Mineral Resources

MAIN PURPOSE OF JOB

To manage the geotechnical activities within the open pit mining operations directed at using available geotechnical data and exploration results to determine and advise on the pit wall structural stability in a safe and efficient manner.

The position also includes the management of geotechnical services and support personnel to execute drill programmes and monitor geotechnical data collection.

Key Performance Areas:

- Manage pit wall structural stability programmes
- Manage geotechnical structural pit mapping
- Lead and mentor a team of geotechnical engineers
- Manage geotechnical functions on site and open pit operations and their associated teams
- Ensure effective quality control evaluation
- Geology support, communication and training
- Geology budget, reporting, document control and business planning
- Stakeholder relationship management
- People and performance management
- Safety, Health, Environmental, Radiation & Quality Effectiveness

Requirements and experience:

- BSc. Honours Degree in Geological or similar qualification in Mining Engineering, preferably with specialization in Geotechnical Engineering or Rock Mechanics
- NQA Qualification: Level 7
- Valid Code B/BE Drivers License. (4x4 driving know how an added advantage)
- 5 years Geological experience
- 5-8 years Drill programme experience
- 5 years similar management experience in open pit mining environment
- Experience in exploration and mining geology preferred

Through its commitment to its people, the company offers a competitive remuneration package and the opportunity to work alongside some of the most experienced and dedicated people in the industry.
